

| Federal | |
|---|--|
| <u>U.S. Air Force</u> | Developed a LEED Application Guide for Lodging projects currently awaiting release and has registered one project for LEED certification. |
| <u>US Army</u> | Adopted LEED into its Sustainable Project Rating Tool (SpiRiT). All buildings built in the Fiscal Year 2006 (October 1 - September 31) must have a Gold SpiRiT rating. |
| <u>U.S. Department of Energy (DOE)</u> 1 (800) DIAL DOE | Supported the development of the LEED Rating System, training workshops and reference material. |
| <u>U.S. Department of the Interior</u> | Signed a Memorandum of Understanding with the USGBC supporting the use of LEED for Existing Buildings by its facilities. The DOI has also signed a memorandum with the GSA and the USGBC supporting LEED for all partnered projects. |
| <u>U.S. Environmental Protection Agency (EPA)</u> | Participated in pilot testing of LEED but did not earn project certification. Currently has multiple projects registered for LEED-NC certification and supports the development of LEED for Existing Buildings. |
| <u>U.S. General Services Administration (GSA)</u> e-mail (253) 931-7080 | Requires all building projects starting design in 2003 meet LEED certified level standards with a target of LEED Silver. |
| <u>U.S. Navy</u> | The first federal entity to certify a LEED project, the Bachelor Enlisted Quarters at the Great Lakes Naval Training Center. This project was certified under the Pilot version of LEED. Navy has provided support for the development of LEED Residential Construction and participates in the LEED Existing Buildings and Multiple Buildings committees. |
| <u>U.S. State Department</u> (202) 647-4000 | Committed to using LEED on the construction of 180 new embassies worldwide over the next 10 years and worked with the USGBC to coordinate a green charette for the project teams in early 2001. The Department has three projects with LEED. |

| State | |
|--------------------------|---|
| <u>State of Arizona</u> | Currently requiring LEED Silver on all state-funded buildings and requires incorporation of renewable energy. |
| <u>State of Arkansas</u> | In July 2005 a bill was signed encouraging all state agencies |

| | |
|--|---|
| (518) 402-2908 | |
| <u>State of Oregon</u> (503) 373-0701 | Offers Business Energy Tax Credit for commercial developments earning Silver or Gold LEED certification. |
| <u>Commonwealth of Pennsylvania</u> | Pennsylvania requires LEED Silver certification for new construction RFPs issued by the Dept. of Environmental Protection and the Dept. of Conservation and Natural Resources. The legislature amended the Public School Code to provide a financial incentive to public school districts that achieve LEED Silver certification. |
| <u>State of Rhode Island</u> | Executive order requires LEED Silver certification of all new constructions and renovations of public buildings. |
| <u>State of Washington</u> | In April 2005, legislation was signed into law requiring state funded projects over 5,000 sq. ft. to achieve LEED Silver certification. |
| <u>State of Wisconsin</u> | Currently seeking LEED Silver certification on the Department of Natural Resources Northeast Regional Headquarters and Service Center. |

| | County |
|--|--|
| <u>Arlington County, VA</u> e-mail (73) 228-4488 | All site plan applications for commercial projects are required to include a LEED Scorecard regardless of whether or not the project intends to seek Certification. A LEED Silver rating on commercial projects allows for higher density development the conventional projects. |
| <u>Cook County, IL</u> | County commissioner proposed an ordinance requiring LEED certification of all county building projects over 5,000 SF, under review as of early 2002. Ordinance calls for a minimum of 8 credits in the Energy and Atmosphere category to ensure best life-cycle returns. |
| <u>Dane County, WI</u> (608) 267-8815 | Dane county developed a Green Building Policy which is primarily guided internally by the LEED rating system. |

| | City |
|---|---|
| <u>Austin, TX</u> e-mail (512) 974-3700 | Austin requires LEED certification of all public works projects over 5,000 SF Developed numerous information resources in their Green Building Program. |
| <u>Boulder, CO</u> | Requires all municipally funded new construction and major addition projects to achieve LEED Silver certification. Also considering requiring certification of commercial projects or |

| | |
|--|---|
| | developing a LEED-based incentive program. |
| <u>Boulder, CO - Green Points Program</u> e-mail (303) 441-1880 | Developed comprehensive rating system to assess home energy use. Requires building permit applicants to earn "points" by selecting green building measures in order to receive a building permit. Applies to private-sector residential projects, new and remodels, over 500 SF. Green Points Program |
| <u>Chula Vista, CA</u> <u>GreenStar Building Efficiency Program</u> e-mail (619) 409-5928 | Offers priority permit processing to residential builders and developers who participate in the program. |
| <u>Chicago, IL</u> | Free energy audits and rebates on efficiency measures; part of Rebuild America program |
| <u>Eugene, OR</u> | Member of the USGBC and working towards adopting LEED for public projects. |
| <u>Frisco, TX</u> (972) 335-5551 ext. 126 | Frisco, TX. New homes must meet minimum Energy Star standards as set by EPA. Green Building Program |
| <u>King County, WA</u> | Requires use of LEED criteria in pre-design and design phases of public projects. Encourages certification. |
| <u>Kansas City, MO</u> | LEED committee is researching the adoption of LEED Certification of public projects. |
| <u>Los Angeles, CA</u> | Requires LEED Certification of all public works construction projects over 7,500 gsf. |
| <u>New York, NY</u> | New York, NY developed its own comprehensive guidelines. High Performance Building Guidelines. |
| <u>Portland, OR</u> e-mail (503) 823-7725 | City requires LEED certification of all new construction and major renovations funded by the city. Have developed city-specific Portland LEED guidelines and encourage Silver, Gold and Platinum ratings. |
| <u>San Diego, CA</u> | San Diego, CA. City Buildings must meet LEED Silver rating as of April 2002 |
| <u>San Jose, CA</u> | Requires LEED Certification of all municipal projects over 10,000 gsf. |
| <u>San Francisco, CA</u> e-mail | Home of San Francisco's Department of the Environment |
| <u>Santa Monica, CA</u> | Santa Monica, CA. Two building performances ordinances focus on reducing energy consumption and runoff, and |

| | |
|---|---|
| | improving runoff quality. |
| <u>San Mateo, CA</u> | Requires LEED Certification of public projects. |
| <u>Scottsdale, AZ</u> (480) 312-7990 | Offers various incentives to home builders for participation in the program. Aims at strengthening consumer awareness and interest. |
| <u>Seattle, WA</u> | Requires LEED Silver Certification of all public projects over 5,000 gsf. |

| Other | |
|---|---|
| <u>EPA Energy Star</u> | LEED-recognized benchmarking tool created by the EPA to compare a building to other buildings throughout the country. Up-to-date descriptions of the many energy efficiency programs and incentives available under the umbrella of Energy Star. |
| <u>Green Points</u> e-mail (303) 441-1880 | Developed comprehensive rating system to assess home energy use. Requires building permit applicants to earn "points" by selecting green building measures in order to receive a building permit. Applies to private-sector residential projects, new and remodels, over 500 SF |
| <u>President's Council on Sustainable Development</u> | Council created by President Clinton on Sustainable Development to advise him on sustainable development and to develop bold new approaches to integrate economic, environmental, and equity issues. |
| <u>Presidio Environmental Education</u> | A model for environmental, financial and cultural sustainability |
| <u>SAVEnergy Program</u> | FEMP-sponsored program assists federal facility managers in identifying and implementing cost-effective renewable energy and water efficiency projects |
